C1 – Main Jumbo Customs Exemption Notification 50/30.06.2017

[Updated as on 1 Oct 2025]

The Department of Revenue has clubbed subject wise notification into a single notification since 1996. This is known as the "Jumbo" notification, a mini Customs Tariff within the main book. The current Notification 50/30.06.2017 supersedes Notification 12/17.03.2012. This Notification consolidates the previous Notification rearranging the entries in Chapter wise order. Superfluous entries have been eliminated.

The notification is divided into three parts as below:

Part I – Effective rates of basic and Integrated Goods and Services Tax with condition No. and List No.

Part II – Annexure giving conditions for exemptions in Part I

Part III – Detail Item Lists of items under exemptions given in Part I

- *Please see the provisos at the end of Table in Part I which govern some of the entries. The proviso may give the validity of an exemption.*
- *A blank entry in the duty column does not mean that the particular duty is zero. The duty is zero only if the word "Nil" appears in the in the entry in the duty column. This is specially applicable in the case of additional duty column where the symbol "_" appears. This means that additional duty levied to the excise duty is applicable. The duty is not Nil.*
- *Further, exemptions should be read with conditions.*
- *TRU Clarifications on some of the entries are given in the respective entry.*
- *Please note that omitted entries are represented by strikethrough characters to show the text before the omission date.*
